

A Song with a Purpose:

Students begin the day upbeat, with a growth mind set.

My name is Mitch. I am a retired Third Grade Teacher. I write songs to empower children. My latest song helps children start the day with joy and purpose.

I envision teachers playing the song in the morning as children enter the classroom. Children start the day with a smile and a silly face (if they dare).

We are making a new version of the video with pictures and videos of students entering the classroom, singing the song, and of course, making a silly face.

Send me your pics and videos and you may see your students in our next video.
